

**Extra-curricular Language Workshops – Clearwater Bay School 2009/2010**

**More than Just a Language Course**

Our instruction is tailored to the diversity of the class in terms of age, level and needs.

We will employ a mixture of teaching styles, where the class will be offered a variety of learning opportunities to accommodate different needs of students. Whether students work individually or in small groups, we prepare interactive teaching and learning activities encompassing visual, verbal and physical motion approaches to help students encounter new information, develop skills, try out ideas and build knowledge.

As students will each benefit in their own mode, at the same time, we encourage them to develop their ability to learn in different approaches. By doing this we can assist them in becoming more effective learners.
